

## Breaking My Silence On Bitcoin...

"Mike, are you in Bitcoin!? What do you think of Bitcoin!?"

Ahhhh yes... Bitcoin...

It's a topic that I've avoided for years now. Not a single post... Not a single word about the subject, (until today), which is interesting when you consider that I've been involved in the cryptocurrency space since 2012.

Yep... I was buying Bitcoin back when it was around \$50, and lost hundreds of them when Mt.Gox was hacked in 2014.

Ethereum? Yep... I bought a bunch of that as well when it was under \$10.

I've done really, really, really well with cryptos, so why the silence?

Well I know from previous experience that entrepreneurs... My audience... Are risk-takers, and that many of you will take my recommendations as gospel.

Which is great when things work out well, but quite horrific when they don't.

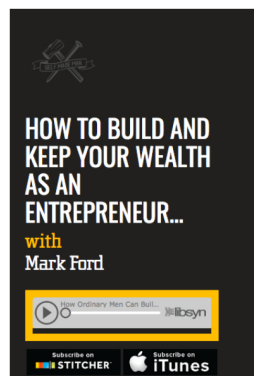

Crypto-currencies like Bitcoin are the most speculative, risky, and volatile markets in the world right now, so I've simply stayed away from the topic... Until today.

So what's changed?

Well about a year ago, I finally found someone in the industry that I trust.

Many of you know that I've been fans and friends with the team behind The Palm Beach Letter for years now.

The Founder, Tom Dyson and I have been personal friends for almost 8 years, and Tom's co-founder Mark Ford is someone I consider a mentor. In fact, he was Episode 02 on the podcast...

Well last year Tom brought a gentleman named Teeka Tiwari onto the team.

Teeka is the epitome of a Self Made Man. Growing up in the foster care system in the United Kingdom, Teeka came to the United States at age 16 with just \$150 in his pocket and the clothes on his back. By 18, he had become the youngest employee at Lehman Brothers. Two years later, he shattered convention by becoming the youngest vice president in the history of Shearson Lehman.

From there he went on to start and manage his own successful hedge fund until 2013, when he retired and joined the Palm Beach team to focus on the opportunity in cryptos full time.

Until early this year, I had no idea who Teeka was.

I simply purchased access to [his newsletter](#) like everyone else did, and I quickly became a huge fan.

I finally found someone with a real financial background who's taking a conservative, safe, systematic approach, to investing in cryptocurrencies... A true professional in an ocean of hype and crap.

Over the past six months, Teeka's research has become the gold-standard in the industry, and his results are pretty incredible...

Here is a screenshot I just took from his subscriber portfolio in the member's area...

These are the recommendations he's shared with his subscribers, along with the buy date, price, and ROI to date...

So I'm finally talking about Bitcoin and cryptos today, because I've finally found someone I trust and that I'm willing to recommend in the industry.

If you want to check out his work, he's holding a live webinar on Thursday to talk about the state of the industry/technology [which you can register for here](#), AND...

He's also going to join us on this week's episode of the Self Made Man podcast

tomorrow.

Is it too late to get into Bitcoin? Should you invest in ICO's? What's going on in China? Will the US ban them?

We'll answer all of these questions and more on tomorrow's podcast episode.

In the meantime, if you're in this space already, or if you've been thinking about getting involved, do yourself a massive favor and [checkout his newsletter](#). You'll be glad you did.
